Summary

I love coding! It's my passion and that's why everything I see is based in elements, components and styles. I aim to solve problems of user experience through design and front-end.

I'm a front-end developer with 10+ years of experience in development of Investor Relations websites and custom themes for platforms (CMS) and 1+ year of experience as front-end and UX designer working in a Agile environment using frameworks and languages such as Angular and React, Bootstrap for responsive design, Sass for styles, 3rd party Javascript libraries. Experience in versioning using GIT. Design tools for prototype such as Figma and Adobe XD.

Skills & Qualifications

- 10+ Years experience with frontend development

- Extensive knowledge in Javascript libraries.

- Experienced in UX design

- 5 Years experience with SEO

Tech Stack

- HTML, CSS, SASS

- React, Next JS
